

# MedAssist AI - UI/UX Wireframes

**Project:** MedAssist AI - Virtual Health Assistant

**Version:** 1.0

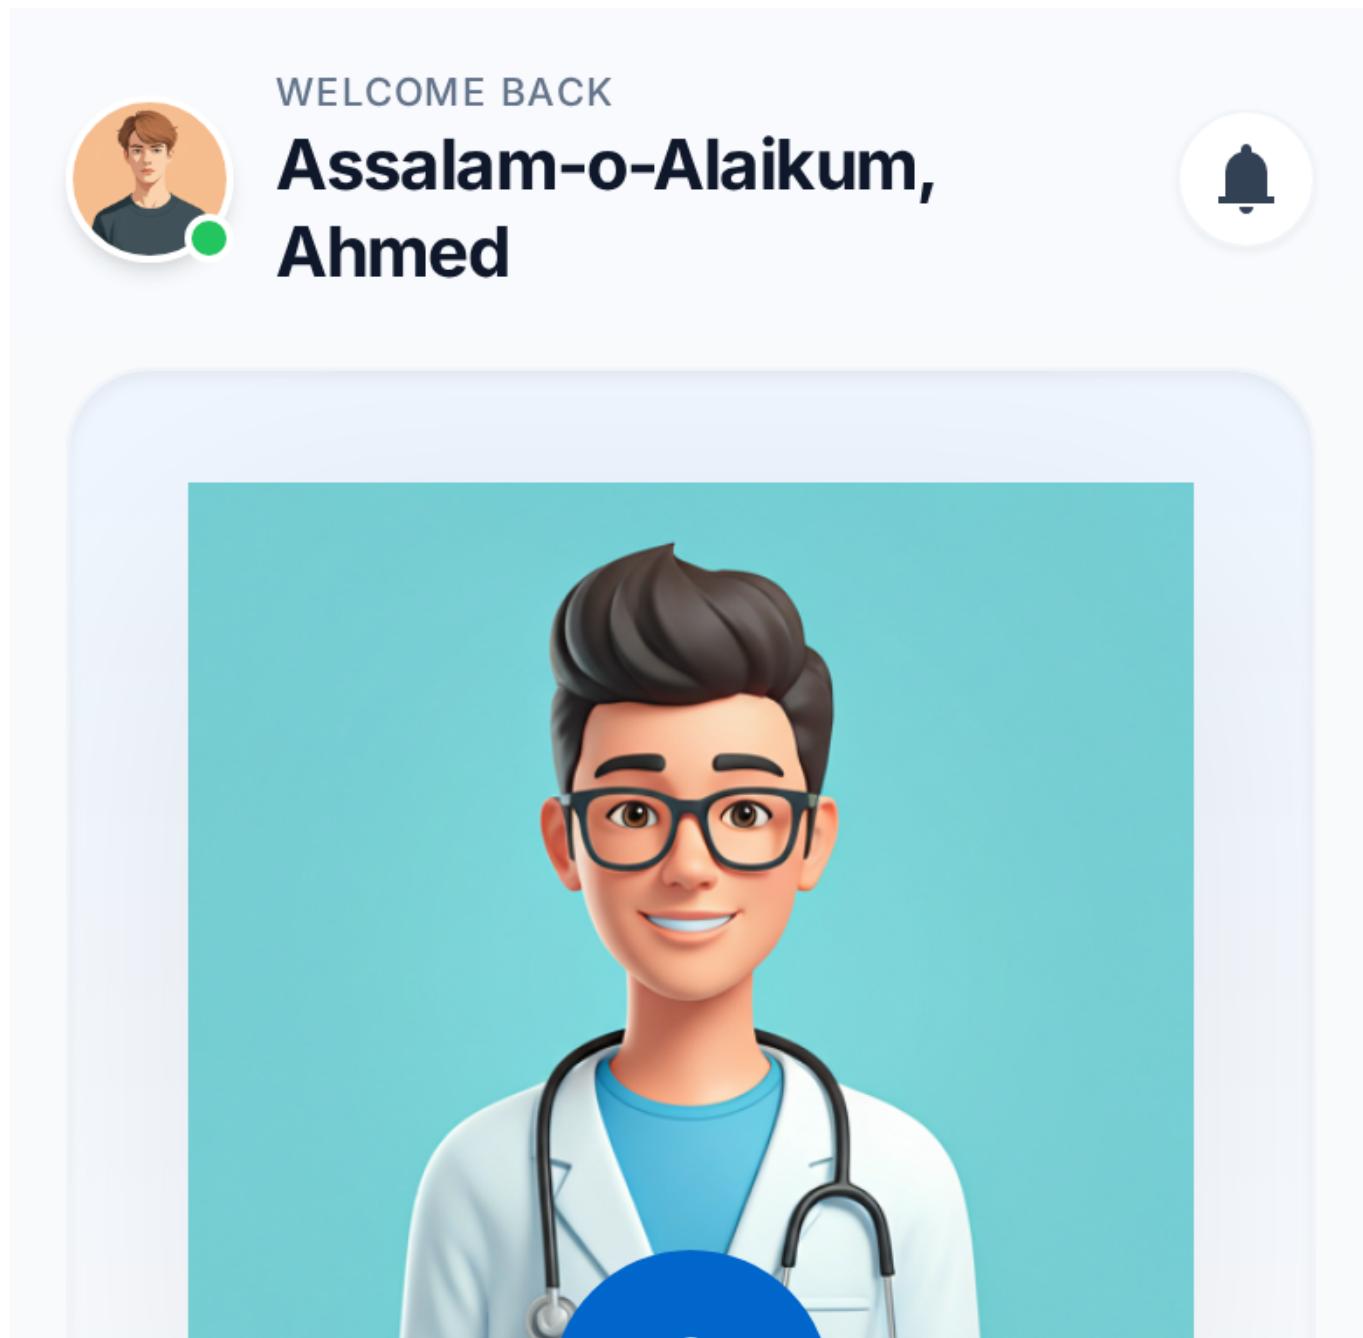

**Date:** January 13, 2026

## 1. Overview

This document serves as the repository for all UI/UX wireframes and visual design concepts for the MedAssist AI application.

## 2. Patient Portal

### 2.1 Home / Dashboard

[Home](#)[Chat](#)[Doctors](#)[Profile](#)

- **Top Bar:** Profile, Notifications, Settings
- **Hero Section: AI Avatar Greeting** ("Hello [Name], how can I help?") with a large central Microphone button.

## 2.2 Symptom Check Interface

A wireframe of a symptom checker interface. At the top center, the text "Symptom Checker" is displayed in bold, with a green circular icon and the text "MEDASSIST AI" below it. On the far left is a blue back arrow icon, and on the far right is a black circular info icon with a white "i". Below the title, the text "ANALYSIS PROGRESS" is on the left and "Step 3 of 8" is on the right, next to a horizontal progress bar that is mostly blue. In the center is a circular profile picture of a female doctor wearing a stethoscope, with a small green circle at the bottom right corner of the image. Below the image, the text "MedAssist AI" is in bold, followed by "Diagnostic Mode Active" in a smaller font.

**MEDASSIST AI**

Hello! I'm here to help you understand your symptoms.  
What's bothering you today?

**YOU**

I've been feeling a bit feverish since yesterday.

**MEDASSIST AI**

**How long have you had the fever?**

**Less than 24h****1-2 days****LISTENING...****Type your symptoms...**

- **Layout:** Chat-based interface.
- **Top:** Avatar View (Speaking/Listening states).

### 3. Doctor Portal

#### 3.1 Doctor Dashboard

The dashboard features a header with the title "Dr. Ahmed's Hub" and navigation icons for search and notifications. A prominent red callout box highlights "Urgent Alerts" with "3 Abnormal Lab Results" and a "Review Now" button. Below this, the "Daily Schedule" for "Tuesday, Oct 24" is displayed, with filters for "All Appointments" (selected), "Confirmed" (with a dropdown arrow), and "Urgent". A detailed appointment entry for "Zoya Khan" at "09:00 AM" is shown, labeled "CONFIRMED" and "Flu Symptoms", with a right-pointing arrow indicating more details.

All Appointments Confirmed ▾ Urgent

09:00 AM Zoya Khan CONFIRMED Flu Symptoms >

The image shows a wireframe of a mobile application interface for managing patient appointments. At the top, there is a header bar with a back arrow, a search bar containing 'Consultations', and a user profile icon. Below the header, the main content area displays three appointment cards:

- Bilal Ahmed** (PENDING)  
10:00 AM  
High Blood Pressure
- Fatima Ali** (TELEHEALTH)  
11:15 AM  
General Consultation
- Hamza Malik** (COMPLETED)  
08:30 AM  
Follow-up Visit

A large blue circular button with a white plus sign is located at the bottom center of the screen.

- **Sidebar:** Navigation (Patients, Schedule, Notes, Settings).
- **Main Area:**
  - **Upcoming Appointments:** List of patients for the day.

### 3.2 Consultation View

The image shows a wireframe of a consultation view for patient **Fatimah B.** The top status bar indicates the time as 9:41 and shows signal, Wi-Fi, and battery icons. The main content area includes a back arrow, the patient's name, a secure connection indicator, and a timestamp of 14:22.

**Patient: Fatimah B.**  
Secure Line • Islamabad, PK

14:22

PAKISTANI CONTEXT V2

## DIFFERENTIAL DIAGNOSIS

### Seasonal Pollen Allergy

*High pollen levels detected in Islamabad*

**92%**

MATCH

Fatimah's symptoms align with the current **Paper Mulberry** pollen surge in the region. Recommend antihistamines available locally (e.g. Fexofenadine).

 Add to Treatment Plan

LIVE TRANSCRIPT

Fatimah

 Doctor, since the wind started yesterday in Islamabad, I have severe sneezing and my eyes are burning.

Dr. Ahmed (You)

I understand, Fatimah. Have you experienced this before during this season?

Fatimah

 Yes, every March it gets worse. I tried some over-the-counter tea but it didn't help... •

 Med History

 Prescription

- **Split Screen Layout:**

- **Left (50%):** Video Call feed with Patient.
- **Right (50%):** AI Assistant Panel.
  - **Live Transcript:** Scrolling text of conversation.
  - **Live Insights:** Floating cards with "Potential Diagnosis: Flu (90%)" or "Ask about fever duration".
  - **Quick Actions:** "Create Prescription", "View History".

## 4. Mobile Responsiveness

*Drawings/Screenshots showing how the layout adapts to smaller screens.*
